Summary

Full Stack Engineer proficient in building scalable APIs with **Laravel** and dynamic user interfaces using **React**. Experienced in **PostgreSQL**, transaction-safe systems, and role-based access control. Passionate about delivering clean, production-ready solutions for real-world clients.

Skills

Backend: Laravel 12, PHP 8.2+, REST APIs, Authentication (Sanctum), Database Transactions, PostgreSQL, MySQL

Frontend: React 19, Next.js, TypeScript, Redux Toolkit, Tailwind CSS 4, Vite

DevOps & Tools: Git/GitHub, GitHub Actions (CI/CD), Vercel, Postman, Scramble

Concepts: API Design, Database Design, RBAC, Queues & Jobs, Agile, TDD

Languages: Arabic (Native), English (Fluent)

Projects

Smart University Registration System   Dec 2025

- Built a scalable **Laravel API** with transaction-based enrollment logic to prevent race conditions.
- Designed a normalized **PostgreSQL** schema and tested performance on a dataset of **50,000+ seeded records**.
- Used database transactions and **row-level locking** to ensure data consistency during concurrent requests.

Enterprise Task Manager API (RBAC)   Nov 2025

- Engineered a granular **Role-Based Access Control (RBAC)** system using **Laravel Policies** to enforce strict security boundaries.
- Implemented **Scoped Data Access**, ensuring Admins have global oversight while Users are strictly isolated to their own data.
- Secured endpoints via **Sanctum** and utilized **Database Seeding** to validate authorization scenarios across multiple roles.

DevStation (Developer Community Platform)   Oct 2025

- Engineered a modern Full Stack platform using **Laravel 12** and **React 19**, utilizing **TypeScript** for strict type safety and maintainability.
- Integrated **Spatie Media Library** to handle complex media uploads and transformations, ensuring optimized storage management.
- Designed a high-performance UI using **Tailwind CSS 4**, connected to a self-documented API via **Scramble** for seamless integration.

Experience

Contract Software Engineer, Independent Consultant / Freelance – Remote   Aug 2025 – Nov 2025

- Developed and delivered a **production-ready dashboard** for a real client (FOP), following accessibility standards.
- Translated complex UI/UX designs into pixel-perfect, interactive **React** components, ensuring responsiveness.
- Managed deployments with **GitHub Actions** and **Vercel** for reliable demo and testing environments.

Certifications

Frontend Developer (React): HackerRank | 2025

PHP & Laravel Development: Laracasts | Satr Platform | 2025

Full Stack Web Development: Satr Platform | 2024

Education

Taibah University, Bachelor of Science (B.Sc.) in Computer Science – Madinah, Saudi Arabia   Sept 2020 – June 2025

- **Capstone:** Smart-life-organizer – Voice-controlled habit management app (Graduated with Honors).
